When you teach a child to give, you empower them to change the world.

Touching Heart's initiatives instill compassion, kindness, and leadership in children, encouraging them to become loving and empathetic leaders. Since our establishment in 2010, our programs have empowered children to recognize their full potential to create positive impacts in the world — now and throughout their lives. Your sponsorship plays an immediate and vital role in empowering our transformative program — Kids on a Mission.

This program enables children to understand the true joy of giving back to the community. What's more, your generous support multiplies in value as these young hearts take part in service projects and raise funds to provide essential resources for children in local foster care, those in local homeless shelters, and those living in carefully screened orphanages worldwide
